Military Veterans Resource Center announces new appointment to board of directors

COLUMBUS, Ohio (April 14, 2015) – Military Veterans Resource Center today announced the addition of Gary Wilhelm of Orient, Ohio to its board of directors.

Wilhelm is a U.S. Army veteran and is the President of WRIST Engineering Company. He has been a practicing structural engineer since 1981 and is a registered professional engineer in Ohio and Michigan. He graduated from the University of Cincinnati with a bachelor's degree in engineering and later pursued graduate work at The Ohio State University.

In addition to structural investigations and design, Wilhelm has designed numerous home modifications for persons with disabilities, including veterans, and has served as a plans examiner for Delaware County and the City of Columbus. For many years, he has volunteered to assist struggling veterans.

“Gary brings diverse experience and a valuable perspective to our board. We are fortunate to have his guidance as we continue to grow in our mission,” said MVRC Executive Director Len Proper.

Wilhelm's appointment expands the MVRC board of directors from seven to eight members. Over the coming months, MVRC will continue its search for additional members committed to the cause of helping Ohio's veterans and their families.

Military Veterans Resource Center's mission is to provide comprehensive services and information that enables veterans who served honorably to become self-reliant in managing career and life decisions. MVRC is a non-profit organization based in Columbus and operates five centers throughout Ohio. For additional information, please visit www.milvetsrc.org.
